Golden Rim Announces Heavily Oversubscribed A\$3M Placement to Advance Kouri Gold Project

Event

Golden Rim has announced that it has received commitments from qualified, institutional, sophisticated and professional investors to raise approximately \$3M before costs through the issue of approximately 116M fully paid ordinary shares in the Company at an issue price of 2.6c per Share. The Placement was heavily oversubscribed. Placement participants will also be offered an opportunity to participate in an offer of free options which will be made under a prospectus on the basis of one free unlisted option for every two new Shares subscribed for under the Placement. The Options will be exercisable at 4c at any time within 24 months from the date of issue.

The Company is also pleased to announce that it will offer eligible existing shareholders the opportunity to participate in a Share Purchase Plan (SPP) to raise up to a further \$1M on similar terms as the Placement on a first come, first serve basis.

Comment

This is very positive news for Golden Rim. Historically, the company has struggled to raise funds. With the recent declaration of a million ounce resource and exciting news regarding new zones and higher grade targets, the market is at long last accepting that Golden Rim is on the verge of finding something substantially bigger than 1M oz, a view long held by BHC.

These funds, plus any additional monies raised by the exercise of options will be used for :

- Follow up RC drilling of the new Red Hill gold discovery, which is located only 4.5km away from the existing Mineral Resource
- Infill auger drilling on additional new target areas, followed by a first pass RC drilling programme once these areas are better defined
- Air core drilling through the river channel that lies between Guitorga West and the mineral resource
- Infill and extensional drilling in the Mineral Resource area
- Additional metallurgical test work
- An expected Mineral Resource Upgrade.

Part of the funds will also be used to complete the Scoping Study on the Company's Paguanta Project in Chile and for working capital purposes. BHC anticipates that the current round of funding will secure all planned exploration until the end of 2018.
